## Contents

1 Introduction 1

2 Dynamic Light Scattering 5
   2.1 Fluctuations and Time Autocorrelation Functions 6
      2.1.1 Time Autocorrelation Functions 6
      2.1.2 Common Forms of Autocorrelation Functions 9
   2.2 Basics of Dynamic Light Scattering 10
      2.2.1 Principles of Dynamic Light Scattering 10
      2.2.2 Dynamic Light Scattering Techniques 12
      2.2.3 The Scattering Vector 17
      2.2.4 The Coherence Area 18
      2.2.5 Number Fluctuations 19
   2.3 Theoretical Forms 20
      2.3.1 Space Time Correlation Function of the Particle Density 20
      2.3.2 Diffusive and Ballistic Motion of Independent Particles 22

3 Complex Plasmas 27
   3.1 Charging of Dust Grains in a Plasma 28
      3.1.1 OML Theory 28
      3.1.2 Extensions of the OML Approach 30
      3.1.3 Other Charging Effects 36
      3.1.4 Temporal Behavior of the Dust Grain Charge 37
   3.2 Forces Acting on a Dust Particle 37
      3.2.1 Electrostatic Interaction between Dust Particles 38
      3.2.2 Ion Drag Force 41
      3.2.3 Other Forces 44
   3.3 Dust Structures and Phase Transitions in Complex Plasmas 47
      3.3.1 Structural Ordering of Dust Particles 47
      3.3.2 Melting and Condensation Transitions of the Dust System 49

4 Experimental Setup 55
   4.1 Complex Plasma Experiment 55
